Dear Fellow,

Office of the Secretary:

Ted Mau, MD, PhD

5323 Harry Hines Blvd

Dallas, Texas 75390

Email: ted.mau@utsouthwestern.edu

Your Membership Committee has recommended **six (6)** candidates to be considered for membership as Active Fellows, and **one (1)** as Corresponding Fellows. Each candidate is presented in their respective category alphabetically with a summary of their curriculum vitae as well as a listing of up to ten publications. In addition to the ten (10) publications listed, the total number of publications is noted. The Corresponding candidate will be listed following the Active candidates. We also have **three (3) Active** Fellows who have requested elevation to Emeritus Fellowship.

You must mark **YES, NO, or ABSTAIN** for each candidate. A "NO" vote on the ballot should be made only for serious reasons which must be stated to the satisfaction of the Council. Any candidate opposed by 10% of the Fellows may not be considered by the Council, and that individual will be eliminated from the list of candidates. The candidate may be proposed again the following year (ALA By-Laws: Article IV, Section 2E).

We continue to utilize voting electronically as it has proven successful and, of course, less expensive. If you are voting electronically, the link will be provided to you; however, for those who received a paper ballot, please follow instructions on the last page of the ballot book. In order for your ballot to be valid, you must **SIGN** the ballot or follow instructions for the electronic ballot by the deadline; otherwise, your ballot will be considered "invalid" and eliminated from the tally. Your vote and comments are confidential.

For those who will submit a paper ballot, please complete and place your signature in the designated place. Remove the page(s) from the booklet, and return it to the office of our administrator, Maxine Cunningham, using one of the methods listed on the last page of the ballot, no later than **April 20, 2025**.

Thank you and we look forward to your attending our 146th Annual Meeting for the induction of our 2025 Fellows.

Sincerely,

Ted Mau, MD, PhD
Secretary
